

ACCENT

vertical artwall console

horizontal artwall console

ACCENT Series Artwall Consoles conveniently conceal medical gas and utility outlets behind a moveable cover that mounts your choice of fine art. Ideal for use in private clinics and extended care facilities, ACCENT Artwalls offer a tasteful decorative display while also providing a tamper-proof, lockable cover that limits unauthorized use. They can be configured in a variety of ways to also bring communications and power outlets to the patient's location.

BASIC CONSTRUCTION

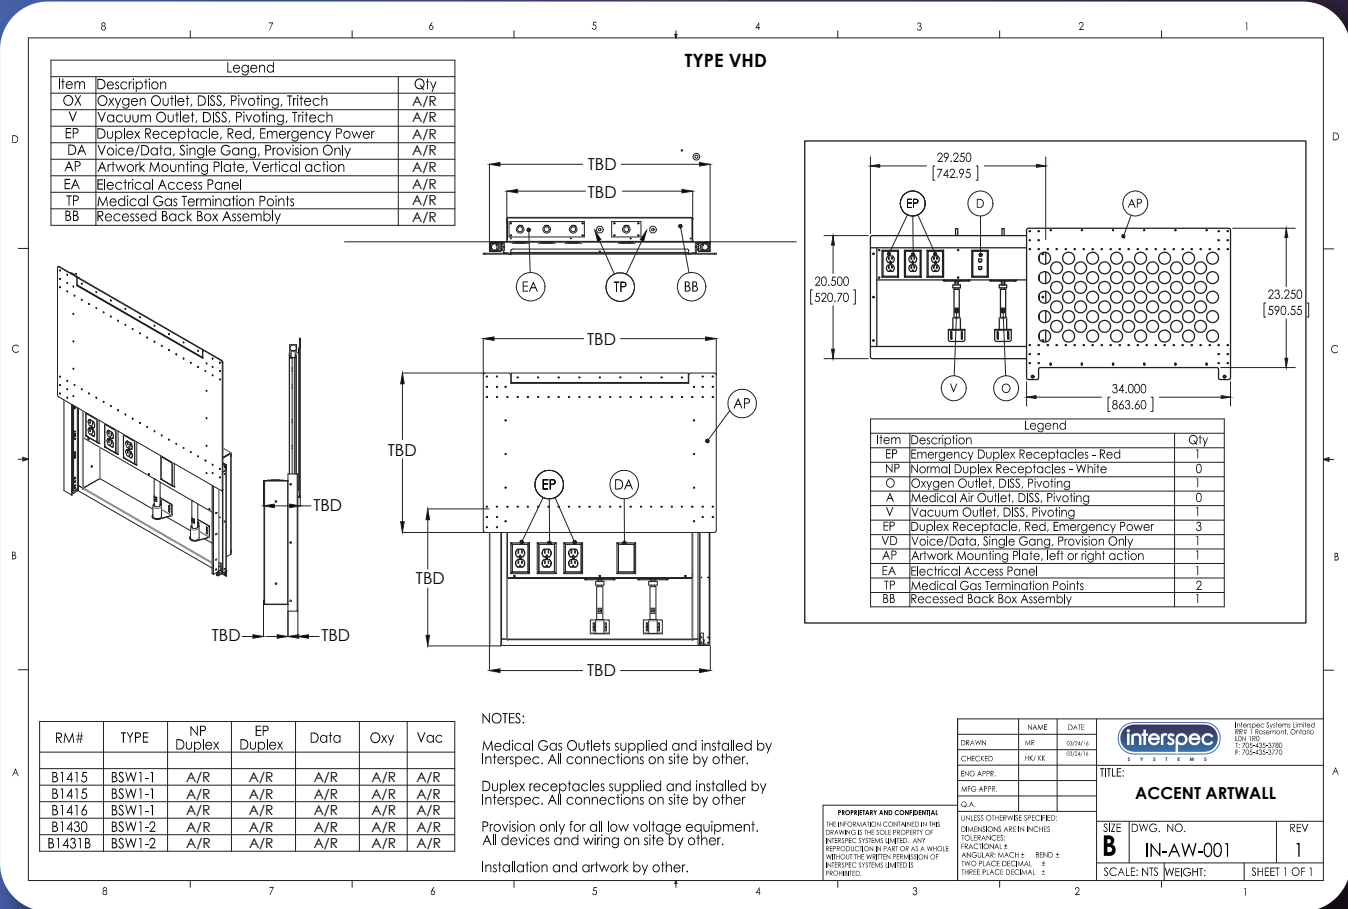

ACCENT Artwall Consoles feature a sliding, powder-coated cover made of heavy gauge steel that houses a compact and convenient recessed wall unit. Various medical gas, air and vacuum outlet ports and electrical devices can be mounted within the console as required. The unit itself is recessed allowing the components to be housed securely within the wall itself. All supplied power outlets are Hospital Grade, 2 pole, 3 wire and rated for 15 or 20 amperes, 120 volts. Due to its simple configuration, the consoles are not pre-wired, allowing maximum flexibility for on-site installation.

ACCENT ARTWALL CONSOLE COMPONENTS:

ACCENT Series Artwall Consoles are custom-manufactured to the specifications laid down during our design consulting phase. The designs are finalized as indicated on the supplied shop drawings and documents. Units can be adapted to accommodate any hospital's requirements.

- **Combination-style knockouts** are provided on the top and bottom of the backbox to accommodate a variety of electrical connections and wiring options.
- **Power Outlet** receptacles are all Hospital Grade and CSA/UL listed. The quantity and type are as specified in the final plans.
- **Individual fixed barriers** within the backbox are pre-installed by Interspec Systems.

ACCENT ARTWALL CONSOLE PROVISIONS:

- **Computer Interconnects:** Computer systems provided by others can also be utilized and when requested, Interspec Systems will make a provision for the installation of the computer jack.
